

Generating and Conserving Top Air Quality

Absolute Clean Air

Equipment with pioneer technology designed to destroy VOC's and biologicals that affect indoor air quality.

The Products

We offer an array of Photocatalytic Oxidation (PCO) products, customizable to your unique environment.

The Process

Indoor air quality improvement using Photocatalytic Oxidation (PCO) technology that completely neutralizes and eliminates VOC's and biologicals.

PCP Compound Photocatalyst System is made to reduce airborne VOCs and biologics in an airstream. And with a 15-year catalyst life, life cycle costs are considerably reduced with the PCP series. The 2008 PCP Compound uses the entire air flow when installed in either the ductwork or in the air handler. In many cases, it's a good choice for gas phase filtration instead of adsorbent ones. With a .05 pressure drop across the catalyst at 500 fpm, you don't see the pressure drop you see in charcoal bed systems.

Features

- UL, EPA certificates
- 15-year catalyst lifespan
- Third Party Tested
- Renewable Surface
- .05 inches of pressure drop @ 500 fpm
- 120 volts 60 hrtz Contact engineering for amp draw specs
- No Ozone

CAPTURE • CLEAN • CONVERT

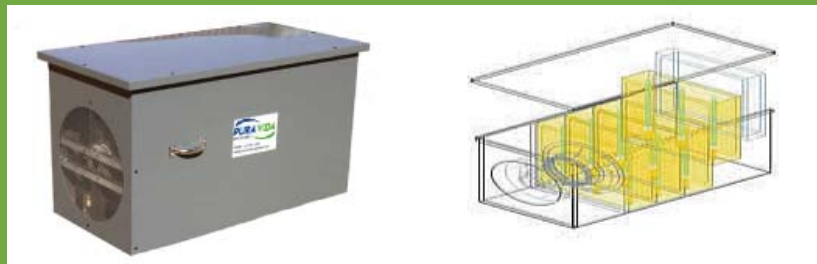

The Pura Vida Air Systems 2008B is a stand-alone unit used to reduce the levels of VOCs and viable airborne biological contaminants. The unit may be ducted in for permanent installations or utilized as a roll-around "point-of-use" air purifier.

The 2008B uses one to four Pura Vida Air Systems 2021 PCP Compound panels.

Features

- 1 Merv 13 Filter 20" x 24" x 4"
- Scalable up to 4 PCP Panels
- Weight 163/174/185/197 lbs
- Amps: 6.5 / 7.6 / 8.7 / 9.8
- Variable Speed Control
- Non-ozone producing lamps
- 3-UVGI Lamps per PCP Panel
- Size: W22.5" x H30.25" x L44.5"
- Voltage: 120-60 hertz
- CFM: 2280
- Standard: caster, handles and powder coated: mock rock

Why Choose Pura Vida?

- UI, CARB, FIFRA (EPA) and OSHPD certified
- Low life cycle costs, value priced
- ASHRAE standards for application-specific products
- Safe, converts toxic substances to benign material
- 15-Year photo-catalyst life span
- Field tested and third-party tested in lab
